Technical details

1) NO MORE FINGERPRINTS AND REFLECTIONS ON YOUR DISPLAY

ULTRA GLASS polarizing technology reduces annoying reflections of light from the display, while an external coating protects it from scratches and fingerprints.

2) ULTRA-THIN MULTILAYERS TECHNOLOGY

Thanks to the ULTRA-THIN MULTI LAYERS TECHNOLOGY, 4 layers of film can be applied without affecting the thickness or transparency of the screen protector.

3) PRECISION CUT

With its PRECISION CUT, the screen protector fits perfectly the screen of the iPod touch 4g, and the film is made invisible to the naked eye.
